**3 YEAR
WARRANTY**

B28 SENSOR ACTIVATED COOLER

GENERAL FEATURES

The safer solution is here...

Our B28 Touch Free Bottled Water Cooler has the latest technology in hygienically dispensing chilled water.

It's the hydration experience we've all been waiting for!

SENSOR: Simply wave your hand above the sensor to change temperature (hot, cold or ambient), then hold your hand over the sensor to dispense the required amount of water.

COLD TANK: 4L, 304 stainless steel for superior chilling. The highly polished surface is hygienic and easy to clean.

HOT TANK: 1.8L, 304 stainless steel with 500watt sheathed heater to ensure temperature control. Easy access on/off switch on the back of the unit.

CABINET: Available in Gloss Black or White. Front panels are moulded UV treated ABS. Side panels are zinc coated steel covered in polymer polyester resin.

TAP: The outside of the chrome look water outlet is made from ABS plastic, the inside is durable NSF approved polypropylene.

OPTIONAL EXTRAS

Waterworks™ Self-Fill Bottle: A flexible filtration option for home or office. Simply fill with tap water for a continuous supply of fresh filtered water.

Waterworks™ Aquanet® Filter: Remove the spike and replace with a scuff ring (SR5) to provide a base for the Waterworks™ Aquanet® filter (AN2) and the water bottle. Ask us about our Non-splash Valve, its ideal for this set up.

SPECIFICATIONS

REFRIGERATION: R134a gas. The refrigerant is controlled by a capillary tube which has no moving parts. The compressor is hermetically sealed with an automatic overload. No lubricant needed.

ELECTRICAL: Certificate number 160793. 220v 50hz single phase. A 1.5 metre power cord is supplied. Full load current is 1.2 amps.

CONDENSER: Low decibel, air cooled static type with no moving parts.

PERFORMANCE

COLD	3.2L per hour	Approx. 4-9°
AMBIENT	3.2L per hour	Room Temperature
HOT	7L per hour	Approx. 84-89°

*Intermittent use only, continuous use will reduce performance.
